section will be developed in subsequent revisions.

2 02 Background

section will be developed in subsequent revisions.

3 03 Summary

section will be developed in subsequent revisions.

4 04 Definitions

section will be developed in subsequent revisions.

5 05 System Architecture

section will be developed in subsequent revisions.

6 06 Data Model

section will be developed in subsequent revisions.

7 07 State Machine

section will be developed in subsequent revisions.

8 08 Guard Validation

section will be developed in subsequent revisions.

9 09 Transition Detection

section will be developed in subsequent revisions.

10 10 Metrics

section will be developed in subsequent revisions.

11 11 Embodiments

section will be developed in subsequent revisions.

12 12 Use Cases

section will be developed in subsequent revisions.

13 13 Failure Modes

section will be developed in subsequent revisions.

14 14 Variations

section will be developed in subsequent revisions.

15 15 Implementation Examples

section will be developed in subsequent revisions.

16 16 Future Extensions

section will be developed in subsequent revisions.
